

Teaching Pedagogy Plan Statistics and Probability 2025-29 Semester II Sec A, B, C, D, E and F

Lec.No	Proposed Date	Points To Covered	Methodology/Activities	Conduction Date	Unit No.
1	01-Jan-26	Definition of statistics, Importance, scope and limitations of statistics	Lecture & PPT		1
2	02-Jan-26	Primary and secondary data, Attributes and variables, data	Lecture & PPT		1
3	08-Jan-26	Examples	Tutorial class Discussion		1
4	09-Jan-26	Examples	Tutorial class Discussion		1
5	10-Jan-26	Discrete and continuous variables Definition of grouped and ungrouped	Lecture & PPT		1
6	11-Jan-26	curves, steam and leaf charts.	Animation Vedios		1
7	16-Jan-26	Examples	Tutorial class Discussion		1
8	17-Jan-26	Examples	Tutorial class Discussion		1
9	20-Jan-26	Arithmetic mean, median and mode, Properties and relations of mean, median and mode,	Lecture & PPT		1
10	21-Jan-26	Range, Quartile, Quartile deviation, Percentile, Mean deviation, Standard deviation, Variance, Coefficient	Lecture & PPT		1
11	22-Jan-26	Examples	Lecture & PPT		1
12	25-Jan-26	Moments, Skewness and kurtosis,	Lecture & PPT		1
13	26-Jan-26	Examples	Tutorial class Discussion		1
14	30-Jan-26	Examples	Tutorial class Discussion		1
15	31-Jan-26	Merits and demerits of statistical measures.	Lecture & PPT		1
16	04-Feb-26	Correlation: Introduction of correlation,	Tutorial class Discussion		2
17	05-Feb-26	Karl Pearson's coefficient of correlation,	Case Study		2
18	06-Feb-26	coefficient of correlation,	Lecture & PPT		2
19	10-Feb-26	Examples	Tutorial class Discussion		2
20	11-Feb-26	Rank correlation	Lecture & PPT		2
21	12-Feb-26	Regression: Introduction of regression, Lines of regression,	Case Study		2
22	16-Feb-26	Examples	Tutorial class Discussion		2
23	17-Feb-26	Examples	Tutorial class Discussion		2
24	20-Feb-26	Properties of regression coefficient, Anglebetween	Lecture & PPT		2
25	21-Feb-26	Properties of regression coefficient, Anglebetween	Case Study		2
26	23-Feb-26	Examples	Discussion		2
27	24-Feb-26	Examples	Tutorial class Discussion		2
28	27-Feb-26	Introduction to probability,	Lecture & PPT		2
29	03-Mar-26	Examples	Tutorial class Discussion		2
30	04-Mar-26	Examples	Tutorial class Discussion		2
31	09-Mar-26	Conditional Probability	Lecture & PPT		2
32	10-Mar-26	Random variables D	Lecture & PPT		3
33	13-Mar-26	Random variables Cont	Lecture & PPT		3
34	14-Mar-26	Examples	Tutorial class Discussion		3
35	21-Mar-26	Discrete probabilitydistribution,	Lecture & PPT		3
36	22-Mar-26	Discrete probabilitydistribution,	Lecture & PPT		3
37	23-Mar-26	Continuousprobability distribution	Lecture & PPT		3
38	05-Apr-26	Examples	Tutorial class Discussion		3
39	06-Apr-26	Binomial and,	Lecture & PPT		3
40	17-Apr-26	Poisson distributions	Lecture & PPT		3
41	18-Apr-26	Continuousprobability distribution	Lecture & PPT		3

42	19-Apr-26	Examples	Discussion	3
43	24-Apr-26	Normal Distribution	Lecture & PPT	3
44	30-Apr-26	Uniform distribution, Exponential distribution	Lecture & PPT	3
45	03-May-26	Examples	Discussion	3
